TECHNICAL DATA

EUROMATIC RIG 480 t

The innovative Bentec EUROMATIC RIG 480 t was designed to handle the most challenging drilling tasks contractors face. With the lowest noise emission, greatest degree of hands-off operation, highest productivity and smallest footprint, the EUROMATIC RIG offers a host of attractive features.

The Bentec EUROMATIC RIG 480 t follows the already proven, highly mobile, modular and flexible EURO RIGTM concept with a focus on safety and limited environmental impact.

One of the rig highlights is its innovative, fully remote-controlled pipe handling system, where the handling process is divided into two phases that occur simultaneously and shorten trip times without compromising safety.

The rig is equipped with numerous leader-of-the-class Bentec components, such as the Bentec TOP DRIVE, drawworks, mud pumps, power control and drillers' cabin, incl. infoDRILL[™].
